

# ERSO Vision | Mission | Strategy

## VISION FOR ROPE SKIPPING

That everybody in Europe could just join – at very low cost – a rope skipping club near to their house, being taught by a professional and have fun by doing the sport the way (s)he wants from – for instance – the age of 6 till 66.

## MISSION OF ERSO

Facilitate interaction between the countries by creating a platform for them to share experiences and help them to implement success stories from other countries in their own country and organise European Competitions as well.

## STRATEGY

Volunteers will organise the ERSO Conference, create a “start to coach” program and a “coaches box”, organise an international camp for coaches and a European championship, create a rewarding system for recreational skippers, set-up a database of rope skipping ambassadors and use social media to promote ERSO’s and its members work.
